One day Industrial visit & Training in SITRA (South Indian Textile Research Association)

Date: 16.10.2018

31 Students of III B. Sc, Microbiology went for one day Industrial visit and training programme held at SITRA, Avinashi road, Coimbatore, as a part of the curriculum on 16.10.2018. The students were accompanied by Dr. G. Arun Kumar (Assistant professor), PG and Research Department of Microbiology.

They were taught about different types of antimicrobial coating in medical textiles used in hospitals to prevent patients from nosocomial infections which spread from hospitals. As it was related to one of their skill based paper in sixth semester - "Textile Microbiology "it was useful to them. The campus is located on the Avinashi Road, Peelamedu, Coimbatore. The campus is equipped with full range of sophisticated textile testing instruments and modern machines with textile testing, electronics and calibration laboratories and library. Students visited the Instrumentation facility.
