

## Hindusthan College of Arts & Science (Autonomous) DBT STAR College Scheme

### Industrial Visit – 2021 to 2022

The Department of Microbiology under DBT star scheme organized a field trip to Regional Science Center to expose the students to wide spectrum of science through various model exhibits. To inculcate students with scientific temperament. The students of I B Sc Microbiology were initially given an introduction about the Regional Science Centre inception and then an overview of science. The resource person Dr. JR Pazhaniswami has given an elaborate talk on opportunities in science field. He discussed about the various aspects of science and also about the funding/scholarship opportunities for students while studying. Students had a detailed exposure to various technological developments and advancements since industrial revolution through model exhibits. They also had experienced the textile technological advancements, mainly with respect to Indian textile industry advancements. Totally 37 students along with 2 faculties have visited the regional science center.
