#### Outreach Activities – 2022 to 2023

#### Extension activity

Department of Microbiology under DBT STAR college Scheme along with Health Club, Hindusthan College of Arts & Science organized an Extension activity on 01<sup>st</sup> December 2022 at Perur, Chettipalayam. The BMI Profiling concluded that out of 50 children 40 are under the underweight category. High prevalence of underweight in the initial years of childhood needs to be looked into in terms of nutritional intervention. It also indicated that the age and gender has a strong impact on BMI and hence dietary practices need to be tailored accordingly. Around **70 students** have participated in the event.

#### Extension activity

The Department of Microbiology under DBT STAR college scheme organized an Extension activity along with National Service Scheme on 01<sup>st</sup> December 2022 at Perur, Chettipalayam. The programme was done to create awareness on hand hygiene for people of all age group. Hands are the primary pathways of germ transmission throughout daily life. Closed toilets, particularly in rural areas are hot bed of pathogens and are the primary source of transmission. Hand hygiene, particularly handwashing with soap, is the most important intervention with the potential to reduce disease. Around **155 students** have participated in the event.
